

RUTIK RAJENDRA KOLHAPURE

PLATFORM PRODUCT MANAGER | PRODUCT MANAGEMENT | DATA & DIGITAL PRODUCTS

Bengaluru, India | +91-7795251884 | rutikkolhapure@gmail.com | LinkedIn: [linkedin.com/in/rutikkolhapure](https://www.linkedin.com/in/rutikkolhapure)

PROFESSIONAL SUMMARY

Product Manager with 4+ years of experience across SaaS, digital transformation, data & analytics, and enterprise technology. Experienced in translating business strategy and validated customer needs into prioritised backlogs, product requirements, user stories, functional specifications, and delivery plans. Strong track record partnering with engineering, QA, analytics, clients, and senior stakeholders to drive complex initiatives from discovery through UAT and production release. Hands-on understanding of APIs, integrations, SQL, data flows, cloud technologies, Agile delivery, product metrics, and risk management, with a focus on scalable platform capabilities and measurable business outcomes.

CORE COMPETENCIES

Product Strategy	Roadmaps • Backlog Ownership • Prioritisation • Product Discovery • Product Requirements • Product Metrics
Platform & Technical	APIs • Integrations • Data Flows • SQL • Cloud Platforms • Data & Analytics • NFRs • System Dependencies
Agile Delivery	Scrum • Sprint Planning • Backlog Refinement • User Stories • FSDs • Acceptance Criteria • UAT • Release Planning
Leadership	Cross-functional Collaboration • Stakeholder Management • Risk Management • Executive Updates • Client Demos • Continuous Improvement

PROFESSIONAL EXPERIENCE

Techtree IT Systems Pvt. Ltd. - Associate Business Consultant | Bengaluru, India | Mar 2023 – Jul 2024

- Owned delivery across multiple SaaS and digital transformation products, translating business priorities and customer requirements into functional requirements, user stories, sprint backlogs, and release plans.
- Led a cross-functional team of 8 across engineering, QA, and business stakeholders; improved user engagement by 30% through customer-feedback-driven product enhancements.
- Prioritised competing initiatives by balancing customer impact, commercial priorities, technical feasibility, dependencies, and delivery timelines across concurrent workstreams.
- Partnered with engineering teams on REST API integrations, third-party services, data-flow validation, UAT, production support, and issue resolution to improve release quality.
- Used SQL and Power BI dashboards to monitor product adoption, delivery KPIs, and operational performance, supporting data-driven prioritisation and stakeholder decision-making.
- Prepared weekly project status reports and senior-stakeholder presentations covering progress, risks, dependencies, and mitigation actions; accelerated issue resolution by 40%.
- Managed a product portfolio valued at approximately ₹7 Cr across loyalty, e-commerce, payments, vouchers, and customer-engagement workflows.

Sukruni Agencies & Technologies - Product Intern | Karnataka, India | May 2025 – Jul 2025

- Conducted stakeholder interviews and rapid discovery of construction-finance workflows, identifying pain points and translating findings into problem statements and a digital transformation roadmap.
- Created process flows, basic wireframes, functional requirements, and feature documentation to support solution design and cross-functional delivery.
- Collaborated with business and technical stakeholders to identify automation and analytics opportunities aimed at reducing manual process steps and improving turnaround-time visibility.

Wipro - Scholar Trainee, Data & Analytics Pre-Sales | Bengaluru, India | Oct 2021 – Feb 2023

- Executed proactive and reactive RFPs for Insurance and Swiss Universal Bank customers by defining solution architectures, estimating resources, and structuring pricing for Data, Analytics, and AI engagements.

- Designed scalable AWS, Azure, and GCP cloud migration architectures for 7 enterprise transformation opportunities, targeting 25% operational-efficiency improvements.
- Evaluated 12 potential acquisition targets across Data, Analytics, and AI capabilities, assessing strategic fit with enterprise growth priorities.
- Partnered with sales, engineering, and solution teams to translate customer needs into solution roadmaps, technical deliverables, and executive presentations.
- Conducted market and technology research to identify emerging trends and develop insights for senior internal stakeholders.

PROJECTS

Brands For Less | Apparel - Gathered and documented business and functional requirements; prepared FSDs, user stories, wireframes, and functional flows; managed sprint backlog, coordinated development and QA, supported UAT, and delivered client demonstrations.

Geekay | Gaming Retail - Translated stakeholder requirements into FSDs, user stories, wireframes, and development handoffs; coordinated engineering, QA, and client teams while supporting backlog management, UAT, and release readiness.

KGen | Gamification Services - Captured business and functional requirements, authored FSDs and user stories, managed sprint backlog and UAT/testing cycles, and coordinated client demos and project status communication.

Beautie & Nutrie | Consumer Commerce - Supported product requirements, wireframe development, user-story creation, functional documentation, and cross-functional coordination for consumer-facing digital experiences.

Café Coffee Day / House of Beauty - Contributed to app wireframes, translated business needs into actionable user stories, and supported customer success and product adoption activities.

EDUCATION

- PGDM, Analytics & Finance - XIME, Kochi
- BCA, Computer Application – Gogte, Belgaum

CERTIFICATIONS

- IBM Product Management Essentials
- Microsoft Azure DP-900: Azure Data Fundamentals
- Reciproci Product Certification
